# MULTILINGUAL INTERCESSIONS

from *Mass of Spirit and Grace*

Ricky Manalo, CSP

## LITURGICAL NOTES

Multilingual Intercessions is a source for worshiping communities and national religious organizations who wish to incorporate one or more languages during intercessory prayer: i.e., Liturgy of the Word during Mass, Liturgy of the Hours, prayer services, etc. It is the first ritual form of its kind: a single melodic pattern of the assembly response, "Lord, hear our prayer," in 30 different languages. My choice of the 30 languages is the result of consultation with the USCCB Secretariate on Cultural Diversity, diocesan leaders, and liturgical colleagues and composers. The languages include: Arabic, Cantonese, Celtic, Croatian, English, Filipino, French, German, Greek, Hawaiian, Hmong, Hungarian, Igbo, Indonesian, Italian, Japanese, Korean, Lao, Latin, Malayalam, Mandarin, Mohawk, Navajo, Ojibwa/e/y/Chippewa, Polish, Portuguese, Spanish, Swahili, Tongan, and Vietnamese. While this list is not exhaustive, the 30 languages represent the many ethnic cultural groups that currently mark the growing diversity of the Roman Catholic Church in the United States.

### Overall Structure

The structure of the setting is divided into three sections: 1) the base refrain (p. 1) which consists of 4 musical phrases (2 measures each); 2) a breakdown of each of the 30 languages in various combinations (pp. 2-31); and 3) assembly scores (available separately as edition 30107165. Please visit ocp.org).

Depending on the multicultural context *and* the level of solemnity (i.e., evening prayer, Sunday Mass, Ordinary Time, Easter Season, special hall settings, etc.), worship leaders could pick and choose the number of languages *and* the number of phrases that are to be sung for a particular liturgy.

### The Base Refrain

The base refrain is the foundation of this setting as it contains 6 languages that are sung in many U.S. worshiping communities today: English, Filipino, French, Latin, Spanish, and Vietnamese. Of the 6 languages, English and Latin are placed in the 1<sup>st</sup> and 3<sup>rd</sup> phrase positions, while Filipino, Vietnamese, Spanish, and French are placed in the 2<sup>nd</sup> and 4<sup>th</sup> positions and may be interchanged. This refrain alone may serve a variety of liturgical needs in many parishes.

### The 30 Languages

For reference practicality, the SATB section (pp. 2-31) is sequenced alphabetically with one language per page. Each page (each language) is divided into 3 sections and notated in SATB:

- an assembly response in 2 languages (English + Language) at the top of the page;
- an assembly response in 3 languages (English + Language + Latin) in the middle;
- a layout of the language in all 4 phrase-positions at the bottom of the page. This third option allows the worship leader to create his/her own combination depending on the specific context. Note: because of the longer length of text, some languages (Hungarian, Japanese, Korean, Malayalam, Mohawk, Navajo, Ojibwa/a/e/Chippewa, and Tongan) require the space of 2 phrases (4 measures altogether).

## Examples of Pastoral Usage

### Example One: Progressive Solemnity (Simple Demonstration)

During a Liturgy of the Hours service a worshipping community sings a response in 2 or 3 languages (e.g., English, Spanish, and/or Latin). Then, during the Eucharistic celebration, the assembly sings a response in 4 languages (e.g., English, Filipino, Latin, and Spanish).

### Example Two: Progressive Solemnity (Complex Demonstration)

During the Sundays of Lent a worshipping community sings various “2 languages” responses based on the cultural groups that are represented:

1. “English and Latin” for week 1
2. “English and Spanish” for weeks 2 and 3
3. “English and Polish” for weeks 4 and 5
4. “English and Filipino” for week 6.

During the Easter Vigil and Easter Sunday Mass the community sings a “4 languages” response: e.g., English, Latin, Polish, and Filipino. Throughout the rest of the Easter Season, “3 languages” responses are sung. Finally, during the solemnity of Pentecost the community sings the same “4 languages” response that was sung at East Sunday.

### Example Three: National or Regional “One-Time/Annual Gatherings”

During a convention “2 or 3 languages responses” are sung throughout the various liturgies: e.g., opening event, morning prayers, evening prayers, reconciliation services, etc. Then, for the main Eucharistic gathering, a “4 languages response” is sung.

## Assembly Scores (Edition 30107165)

Since it would be impossible to provide assembly scores for all possible language combinations (1000+), this section only contains assembly scores for: 1) the base refrain (p. 1); and 2) the 2-Languages and 3-Language combinations for all 30 languages. For other language combinations (the third section of each language page), the worship leader could create his/her own score using a music notation program or simply printing out the text of each of the languages in the desired sequence without musical notation. While this last option may not be the ideal (as far as printed worship aids are concerned), it has been my experience that these 2-4 measures phrases are short enough for assemblies to learn by heart. Lastly, to promote a better model of intercultural worship, consider inviting cultural representative (if available) to teach the assembly correct pronunciations from *their* perspectives before teaching the actual music.

## Acknowledgements

No, I do not speak 30 languages, but I have a wonderful intercultural network of friends and musicians that I have fostered over the years. This resource would not have been possible without the help of the following people: Greg A.
